(54) COOLING COSMETIC

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain a cooling cosmetic which scarcely irritates skins, can impart a sufficient cooling touch over a long time and hardly generates a characteristic smell by combining a specific amount of a menthol derivative with a specific amount of menthol or camphor and a lower alcohol.

SOLUTION: This cooling cosmetic contains (A) a menthol derivative (preferably L-menthyl glyceryl ether and/or L-menthyl lactate) in an amount of 0.5-5 wt.% based on the total amount of the cooling cosmetic, (B) menthol and/or camphor in an amount of 0.05-1 wt.% based on the total amount of the cooling cosmetic, and (C) a lower alcohol. The component C is preferably ethanol and is preferably contained in an amount of 2-50 wt.% based on the total amount of the cooling cosmetic. The cosmetic is preferably further mixed with (D) a polyhydric alcohol (preferably glycerol, 1,3-butylene glycol). The component D is preferably further mixed in an amount of 0.1-20 wt.% based on the total amount of the cooling cosmetic.

LEGAL STATUS

[Date of request for examination] 11.07.2003

[Date of sending the examiner's decision of rejection]

CLAIMS

[Claim(s)]

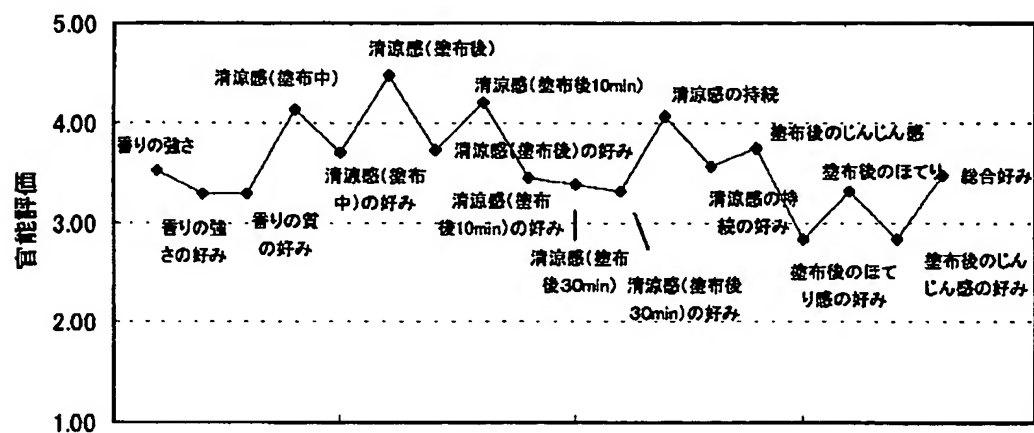

[Claim 1] The charge of cold sense makeup characterized by containing [(A) menthol derivative] 1 % of the weight and 0.05 - (C) lower alcohol for 0.5 - (B) menthol and/or camphor 5% of the weight to the charge whole quantity of cold sense makeup.

[Claim 2] The charge of cold sense makeup which the aforementioned (C) lower alcohol is ethanol and is characterized by containing two to 50% of the weight to the charge whole quantity of cold sense makeup.

[Claim 3] The charge of cold sense makeup according to claim 1 or 2 to which the menthol derivative (aforementioned [A]) is characterized by being L-minced meat RUGURI cel ether and/or L-menthyl lactate.

[Claim 4] The charge of cold sense makeup according to claim 1, 2, or 3 characterized by furthermore containing (D) polyhydric alcohol.
